

Ultracompact, Ultrathin Photoelectric Sensor with Built-in Amplifier

E3T

The Improved E3T Series with Easier, Smoother Mounting and Installation

- Newly added Through-beam, Long-distance (2 m) Sensors (E3T-ST3□).
- Easy installation with M3-mounting Sensors (E3T-ST□□M, E3T-FD□□M, and E3T-SL□□M).
- Small Cylindrical Sensors for one-point mounting also added to the Series. (E3T-C□□□(S)).

 Be sure to read *Safety Precautions* on page 13.

		Dark-ON	E3T-SL12M 2M	E3T-SL14M 2M	
	5 to 30 mm	Light-ON	E3T-SL21M 2M	E3T-SL23M 2M	
		Dark-ON	E3T-SL22M 2M	E3T-SL24M 2M	

Small Cylindrical Sensors **NEW** A set of mounting nuts is included with the Sensor.

Sensing method	Appearance	Sensing distance	Operation mode	Model	
				NPN output	PNP output
Through-beam (Emitter + Receiver)		1 m	Light-ON	---	---
			Dark-ON	E3T-CT12 2M	E3T-CT14 2M
		500 mm	Light-ON	---	---
			Dark-ON	E3T-CT22S 2M	E3T-CT24S 2M
Diffuse-reflective (with adjuster) 	3 to 50 mm	Light-ON	E3T-CD11 2M	E3T-CD13 2M	
		Dark-ON	---	---	

*1. Values in parentheses indicate the minimum required distance between the Sensor and Reflector.

*2. The model number of the Emitter is expressed by adding an "L" to the set model number in the table. Example: E3T-ST11-L 2M
The model number of the Receiver is expressed by adding a "D" to the set model number in the table. Example: E3T-ST11-D 2M
Orders for individual Emitters and Receivers are accepted. (Modifications are required for some models.)

*3. Models are available either with or without the E39-R37-CA Reflector included.

Models with E39-R37-CA Reflector. E3T-SR4□-S

Models without Reflector. E3T-SR4□-C

Variety of Connection Specifications

The models with the connection specifications marked with a black circle in the table are available. These are applicable only to M2-mounting Sensors. The model number indication is a combination of the basic model and the connection specification.

Example: E3T-ST11-M1TJ 0.3M

Basic model number Connection specification

NPN Output

Model			Model number example	E3T-ST11-M1TJ 0.3M	E3T-ST11 5M	E3T-ST11R 2M	E3T-ST11-ECON 0.3M	E3T-ST11-ECON 2M

*The sensing distance depends on the Reflector that is used. The sensing distance is 200 mm if an E39-R4 is used and 100 mm if an E39-R37-CA is used.

Accessories (Order Separately)

Accessories for M2-mounting Sensors These accessories are not included with the Sensor. Order them separately if required.

Name		Applicable Sensor	Model	Quantity	Dimensions page	Remarks
Mutual Interference Prevention Filter for Through-beam Side-view Sensors*1		E3T-ST3□	E39-E14	4 (Two each for Emitter and Receiver)		Sensing distance 1 m
		E3T-ST1□				Sensing distance 0.5 m
Slit for Through-beam Side-view Sensors	0.5 dia.	E3T-ST3□	E39-S63	2 (One each for Emitter and Receiver; common with Slit widths of 1 dia. and 0.5 dia.)	19	Sensing distance 200 mm, Minimum detectable object (typical) 0.5-mm dia.
		E3T-ST1□				Sensing distance 100 mm, Minimum detectable object (typical) 0.5-mm dia.
		E3T-ST2□				Sensing distance 30 mm, Minimum detectable object (typical) 0.5-mm dia.
	1 dia.	E3T-ST3□				Sensing distance 600 mm, Minimum detectable object (typical) 1-mm dia.
		E3T-ST1□				Sensing distance 300 mm, Minimum detectable object (typical) 1-mm dia.
		E3T-ST2□				Sensing distance 100 mm, Minimum detectable object (typical) 1-mm dia.
Slit for Through-beam Flat Sensors	0.5 dia.	E3T-FT1□	E39-S64			Sensing distance 50 mm, Minimum detectable object (typical) 0.5-mm dia.
		E3T-FT2□				Sensing distance 30 mm, Minimum detectable object (typical) 0.5-mm dia.
	1 dia.	E3T-FT1□				Sensing distance 100 mm, Minimum detectable object (typical) 1-mm dia.
		E3T-FT2□				Sensing distance 50 mm, Minimum detectable object (typical) 1-mm dia.
Sensitivity Adjustment Unit for Through-beam Side-view Sensors		E3T-ST3□	E39-E10	1		Sensing distance (typical) 1,200 to 1,800 mm
		E3T-ST1□				Sensing distance (typical) 300 to 800 mm
Mounting Brackets for Side-view Sensors *2		E3T-S□□□	E39-L116	1	20	Nut plate provided
			E39-L117			
			E39-L118			
Mounting Brackets for Flat Sensors *2		E3T-F□□□	E39-L119	1	21	---
			E39-L120			
Screw Set for Side-view Sensors *3*4		E3T-S□□□	E39-L164	2 for each		Material: Iron (Same type as provided with the Sensor.) Contents: Phillips screws (M2×14), Hexagonal nuts, Spring washers, Flat washers
Screw Set for Flat Sensors *3*4		E3T-F□□□	E39-L165			Material: Iron (Same type as provided with the Sensor.) Contents: Phillips screws (M2×8), Hexagonal nuts, Spring washers, Flat washers
SUS Screw Set for Flat Sensors *3		E3T-F□□□	E39-L172	2		Material: SUS Contents: Bolt with hexagonal hole (M2×6)
SUS Screw Set for Side-view Sensors *3		E3T-S□□□	E39-L173	2 for each		Material: SUS Contents: Bolt with hexagonal hole (M2×12), Hexagonal nuts, Spring washers, Flat washers

*1. An arrow indicates the polarization direction. Mutual interference can be prevented by using different polarization directions for adjacent Emitters/Receivers.

*2. When using Through-beam Sensors (E3T-ST□□, E3T-FT□□), order one bracket for the Emitter and one for the Receiver.

*3. Order two Sets, one for the Emitter and one for the Receiver, for Through-beam Sensors (E3T-ST□□ or E3T-FT□□).

This is the Screw Set for mounting the Sensor to the Mounting Bracket. Order this Set if you lose the screws. Do not use this Screw Set to mount the Mounting Bracket to the equipment.

*4. This is included with the Sensor.

Accessories for M3-mounting Sensors These accessories are not included with the Sensor. Order them separately if required.

Name	Applicable Sensor	Model	Quantity	Dimensions page	Remarks
Slits for Through-beam Side-view Sensors	0.5 dia.	E3T-ST1□M	2 (One each for Emitter and Receiver)	19	Sensing distance 100 mm, Minimum detectable object (typical) 0.5-mm dia.
		E3T-ST2□M			Sensing distance 30 mm, Minimum detectable object (typical) 0.5-mm dia.
	1 dia.	E3T-ST1□M			Sensing distance 300 mm, Minimum detectable object (typical) 1-mm dia.
		E3T-ST2□M			Sensing distance 100 mm, Minimum detectable object (typical) 1-mm dia.
Mounting Bracket for Side-view Sensors *1	E3T-S□□□M	E39-L166	1	22	Nut plate provided
Mounting Bracket for Flat Sensors		E39-L167			---
Back-mounting Spacer for Flat Sensors	E3T-FD□□M	E39-L168			Use this Spacer when mounting a Flat Sensor (E3T-FD□□M) from the back.
SUS Screw Set for Flat Sensors *2	E3T-FD□□M	E39-L170	2	---	Material: SUS Contents: Bolt with hexagonal hole (M3×6)
SUS Screw Set for Side-view Sensors *1*2	E3T-S□□□M	E39-L171	2 for each	---	Material: SUS Contents: Bolt with hexagonal hole (M3×15), Hexagonal nuts, Spring washers, Flat washers

*1. When using Through-beam Sensors (E3T-ST□□M), order one bracket for the Emitter and one for the Receiver.

*2. This is the Screw Set for mounting the Sensor to the Mounting Bracket. Order this Set if you lose the screws. Do not use this Screw Set to mount the Mounting Bracket to the equipment.

Accessories for Small Cylindrical Sensors

Name	Applicable Sensor	Model	Quantity	Dimensions Page	Remarks
SUS Nut Set for Through-beam Sensors *1	E3T-CT□□ E3T-CT□□S	E39-M5	4 (Hexagonal nuts), 2 (Toothed washers)	---	Material: SUS (Same type as provided with the Sensor.) This Driver is used to turn the sensitivity adjuster. Provided with E3T-CD□□
SUS Nut Set for Diffuse-reflective Sensors	E3T-CD□□	E39-M6	2 (Hexagonal nuts), 1 (Toothed washers)		
Adjustment Driver for Diffuse-reflective Sensors		E39-G17	1		

*1. This Nut Set is for the Emitter/Receiver. This is the Nut Set for mounting the Sensor. Order this Set if you lose the screws.

Accessories for All Sensors

Name	Applicable Sensor	Model	Quantity	Dimensions Page	Remarks
Small Reflectors (for Retro-reflective Sensors)	E3T-SR4□	E39-R4	1	18	Sensing distance 200 mm [30 mm] *1 Minimum detectable object 2-mm dia. Provided with the E3T-SR4□
	E3T-SR4□-S	E39-R37-CA *2			Sensing distance 100 mm [10 mm] *1 Minimum detectable object 2-mm dia. Provided with the E3T-SR4□-S
Tape Reflectors (for Retro-reflective Sensors)	E3T-SR4□-C	E39-RS1-CA *2		19	Sensing distance 100 mm [10 mm] *1 Minimum detectable object 2-mm dia. Use Tape Reflectors in combination with the E3T-SR4□-C, which does not come with a Reflector.
		E39-RS2-CA *2			
		E39-RS3-CA *2			

*1. Values in parentheses indicate the minimum required distance between the Sensor and Reflector.

*2. The E3T-SR4□ cannot be used with the E39-R37 or E39-RS1/2/3 (without CA) Tape Reflectors. The E39-□-CA Reflector is for use only with the E3T-SR4□. It cannot be used with other Sensors.

Sensor I/O Connectors

(Models with Pre-wired Connectors: A Connector is not provided with the Sensor. Be sure to order a Connector separately.)

Size	Cable	Appearance	Cable type	Model
M12 (For -M1TJ models)	Standard cable	Straight 	2 m	XS5F-D421-D80-A
			5 m	XS5F-D421-G80-A
e-CON		Connector on one end 	2 m	E39-ECON2M
			5 m	E39-ECON5M
			0.5 to 1 m	E39-ECONW□M
			1.1 to 1.5 m	
1.6 to 2 m				

Note: When using Through-beam Sensors, order one connector for the Emitter and one for the Receiver.

Classification	Wire color	Connector pin No.	Application
DC	Brown	1	Power supply (+V)
	White	2	---
	Blue	3	Power supply (0 V)
	Black	4	Output

Note: Pin 2 is not used. Pin 2 and 4 are not used with Through-beam Emitters.

Safety Precautions

Refer to *Warranty and Limitations of Liability*.

⚠ WARNING

This product is not designed or rated for ensuring safety of persons. Do not use it for such purpose.

Do not apply AC power to the E3T, otherwise the E3T may rupture.

Precautions for Correct Use

Do not use the product in atmospheres or environments that exceed product ratings.

● Wiring

The maximum power supply voltage is 26.4 VDC. Before turning the power ON, make sure that the power supply voltage be not more than maximum voltage.

Load short-circuit protection

The E3T incorporates a load short-circuit protection function. If the load short-circuits, the output of the E3T will be turned OFF. Then, recheck the wiring and turn on the E3T again to reset the load short-circuit protection function. The load short-circuit protection function will work if there is a current flow that is 1.5 times larger than the rated load current. When using a capacitance load, be sure that the inrush current will not exceed 1.5 times larger than the rated current.

● Mounting

When mounting the Sensor, never strike it with a heavy object, such as a hammer. Doing so may reduce its watertight properties. Use screws with spring, flat, or toothed washers to secure the Sensor. Tightening Torque
 M2-mounting Sensors: 0.15 N·m max
 M3-mounting Sensors: 0.5 N·m max
 Small Cylindrical Sensors: 1 N·m max

Mounting the Sensor on Moving Parts

Consider models that use break resistant cables (e.g., Robotics Cables) if the Sensor will be mounted on a moving part, such as a robot hand. The flexing resistance of Robotics Cable at approximately 400 thousand times is far superior to that of standard cable at approximately 14 thousand times.

Cable Bending Rupture Test (Tough Cable Breaking Test)

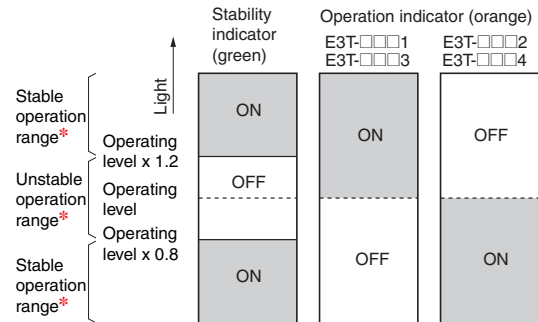

The cable is repeatedly bent with power supplied to check the number of bends until the current is turned OFF.

Specimen		Standard cable 2.4-mm dia. (7/0.127-mm dia.), 3 conductors	Robotics cable 2.4-mm dia. (20/0.08-mm dia.), 3 conductors
Test	Bending angle (θ)	90° each to the left and right	
	Bending speed	50 times/min	
	Load	200 g	
	Operation per bend	Once in 1 to 3 in the diagram	
Contents/ conditions	Curvature radius of support point (R)	5 mm	
	Result	Approx. 14,000 times	Approx. 400,000 times

● Adjusting

Indicators

- The following graphs indicate the status of each operating level.
- Be sure to use the E3T within the stable operating range.

* If the E3T fs operating level is set to the stable operation range, the E3T will be in most reliable operation without being influenced by temperature change, voltage fluctuation, dust, or setting change. If the operating level cannot be set to the stable operation range, pay attention to environmental changes while operating the E3T.

Use of E39-E10 Sensitivity Adjustment Unit

(Dark-ON: E3T-ST12)

1. Mount the Unit on the Receiver.
2. Set the adjuster of the Sensitivity Adjustment Unit to Max. (Before shipping: Max.)
3. After mounting on the Sensor, adjust the optical axis and secure the Sensor.
4. Place a workpiece between the Emitter and Receiver and gradually turn the adjuster counterclockwise toward the Min. side. Stop turning the adjuster when the operation indicator and stability indicator (green) turn ON.
5. Remove the workpiece and confirm that the operation indicator is OFF and the stability indicator (green) is ON. This completes the adjustment.

Note: If the light attenuation rate due to a workpiece is 40% or less, the stability indicator will not turn ON whether or not light is received. When the variation of light is small such as when sensing semi-transparent workpieces, carefully perform preliminary testing.

E3T-CD□□ Sensitivity Adjustment

Use the special screwdriver that is provided with the Sensor to adjust the sensitivity. Do not exceed 0.8 N·m when turning the adjuster.

● Others

Do not install the E3T in the following locations.

- Locations subject to excessive dust or dirt
- Locations subject to direct sunlight
- Locations subject to corrosive gas
- Locations subject to contact with organic solvents
- Locations subject to vibration and shock
- Locations subject to contact with water, oil, or chemicals
- Locations subject to high humidities that might result in condensation

Terms and Conditions of Sale

- Offer; Acceptance.** These terms and conditions (these "Terms") are deemed part of all quotes, agreements, purchase orders, acknowledgments, price lists, catalogs, manuals, brochures and other documents, whether electronic or in writing, relating to the sale of products or services (collectively, the "Products") by Omron Electronics LLC and its subsidiary companies ("Omron"). Omron objects to any terms or conditions proposed in Buyer's purchase order or other documents which are inconsistent with, or in addition to, these Terms.
- Prices; Payment Terms.** All prices stated are current, subject to change without notice by Omron. Omron reserves the right to increase or decrease prices on any unshipped portions of outstanding orders. Payments for Products are due net 30 days unless otherwise stated in the invoice.
- Discounts.** Cash discounts, if any, will apply only on the net amount of invoices sent to Buyer after deducting transportation charges, taxes and duties, and will be allowed only if (i) the invoice is paid according to Omron's payment terms and (ii) Buyer has no past due amounts.
- Interest.** Omron, at its option, may charge Buyer 1-1/2% interest per month or the maximum legal rate, whichever is less, on any balance not paid within the stated terms.
- Orders.** Omron will accept no order less than \$200 net billing.
- Governmental Approvals.** Buyer shall be responsible for, and shall bear all costs involved in, obtaining any government approvals required for the importation or sale of the Products.
- Taxes.** All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Omron or required to be collected directly or indirectly by Omron for the manufacture, production, sale, delivery, importation, consumption or use of the Products sold hereunder (including customs duties and sales, excise, use, turnover and license taxes) shall be charged to and remitted by Buyer to Omron.
- Financial.** If the financial position of Buyer at any time becomes unsatisfactory to Omron, Omron reserves the right to stop shipments or require satisfactory security or payment in advance. If Buyer fails to make payment or otherwise comply with these Terms or any related agreement, Omron may (without liability and in addition to other remedies) cancel any unshipped portion of Products sold hereunder and stop any Products in transit until Buyer pays all amounts, including amounts payable hereunder, whether or not then due, which are owing to it by Buyer. Buyer shall in any event remain liable for all unpaid accounts.
- Cancellation; Etc.** Orders are not subject to rescheduling or cancellation unless Buyer indemnifies Omron against all related costs or expenses.
- Force Majeure.** Omron shall not be liable for any delay or failure in delivery resulting from causes beyond its control, including earthquakes, fires, floods, strikes or other labor disputes, shortage of labor or materials, accidents to machinery, acts of sabotage, riots, delay in or lack of transportation or the requirements of any government authority.
- Shipping; Delivery.** Unless otherwise expressly agreed in writing by Omron:
 - Shipments shall be by a carrier selected by Omron; Omron will not drop ship except in "break down" situations.
 - Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer;
 - All sales and shipments of Products shall be FOB shipping point (unless otherwise stated in writing by Omron), at which point title and risk of loss shall pass from Omron to Buyer; provided that Omron shall retain a security interest in the Products until the full purchase price is paid;
 - Delivery and shipping dates are estimates only; and
 - Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions.
- Claims.** Any claim by Buyer against Omron for shortage or damage to the Products occurring before delivery to the carrier must be presented in writing to Omron within 30 days of receipt of shipment and include the original transportation bill signed by the carrier noting that the carrier received the Products from Omron in the condition claimed.
- Warranties.** (a) **Exclusive Warranty.** Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied. (b) **Limitations.** OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) **Buyer Remedy.** Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty. See <http://www.omron247.com> or contact your Omron representative for published information.
- Limitation on Liability; Etc.** OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY. Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.
- Indemnities.** Buyer shall indemnify and hold harmless Omron Companies and their employees from and against all liabilities, losses, claims, costs and expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Omron is a party) which arises or is alleged to arise from Buyer's acts or omissions under these Terms or in any way with respect to the Products. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Omron and defend or settle any action brought against such Companies to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of another party.
- Property; Confidentiality.** Any intellectual property in the Products is the exclusive property of Omron Companies and Buyer shall not attempt to duplicate it in any way without the written permission of Omron. Notwithstanding any charges to Buyer for engineering or tooling, all engineering and tooling shall remain the exclusive property of Omron. All information and materials supplied by Omron to Buyer relating to the Products are confidential and proprietary, and Buyer shall limit distribution thereof to its trusted employees and strictly prevent disclosure to any third party.
- Export Controls.** Buyer shall comply with all applicable laws, regulations and licenses regarding (i) export of products or information; (ii) sale of products to "forbidden" or other proscribed persons; and (iii) disclosure to non-citizens of regulated technology or information.
- Miscellaneous.** (a) **Waiver.** No failure or delay by Omron in exercising any right and no course of dealing between Buyer and Omron shall operate as a waiver of rights by Omron. (b) **Assignment.** Buyer may not assign its rights hereunder without Omron's written consent. (c) **Law.** These Terms are governed by the law of the jurisdiction of the home office of the Omron company from which Buyer is purchasing the Products (without regard to conflict of law principles). (d) **Amendment.** These Terms constitute the entire agreement between Buyer and Omron relating to the Products, and no provision may be changed or waived unless in writing signed by the parties. (e) **Severability.** If any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (f) **Setoff.** Buyer shall have no right to set off any amounts against the amount owing in respect of this invoice. (g) **Definitions.** As used herein, "including" means "including without limitation"; and "Omron Companies" (or similar words) mean Omron Corporation and any direct or indirect subsidiary or affiliate thereof.

Certain Precautions on Specifications and Use

- Suitability of Use.** Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases but the following is a non-exhaustive list of applications for which particular attention must be given:
 - Outdoor use, uses involving potential chemical contamination or electrical interference, or conditions or uses not described in this document.
 - Use in consumer products or any use in significant quantities.
 - Energy control systems, combustion systems, railroad systems, aviation systems, medical equipment, amusement machines, vehicles, safety equipment, and installations subject to separate industry or government regulations.
 - Systems, machines and equipment that could present a risk to life or property. Please know and observe all prohibitions of use applicable to this Product.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON'S PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.
- Programmable Products.** Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.
- Performance Data.** Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.
- Change in Specifications.** Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.
- Errors and Omissions.** Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.
