MOUNTING HOLE

RDD 200-90

Material	Nylon 6/6
Certifications	**RU** Recognized under the Component Program of Underwriters' Laboratories File E15331
	SP Certified by the Canadian Standards Association File 8919
Flammability Rating	94V-2
Temperature Range	-.04°F (-18°C) to 221°F (105°C).

- **Right Angle design eases the cable into the bend**, prevents kinking and assures longest cable and product life.

- Assembly friendly! Independent of insertion into the panel, RDD Lockit™ Strain Reliefs self-lock onto the cable. Preassemble RDD Lockits off line for final assembly at a later time or remote location, for lower installed cost!

- Install easily with fingertip pressure into a standard round or Double D hole. No tools required, even for hand assembly.

- Protect the lifeline of your electric/ electronic products by absorbing the forces of push and pull that may be exerted on the flexible power cord. Double D design eliminates the possibility of part rotation under forces of twist.

- Multiple panel locking steps secure Lockit Strain Reliefs into a wide range of panel thicknesses for a **flush, finished fit.**

- Heyco's automated Pre-Assembly Equipment speeds assembly of the RDD onto the cable and thus lowers costs while greatly reducing risk of carpal tunnel syndrome. See pages 4-15 & 4-16.

- Consult Heyco for other wire types and sizes.

- See page 4-38 for corresponding **Mounting Hole Plugs** which can be used to fill blank/unused Mounting Holes and thus allow for a single panel design for multiple applications.
