Features

- 3.3 and 5 VDC voltage supply option
- Absolute
- Bushing or servo mount
- Non-contacting magnetic technology
- Small size
- CMOS and TTL compatible
- Resolution: 1024 positions
- Long life
- High operating speed
- Highly repeatable
- Sealed option
- Magnetic technology

EMS22A - Non-Contacting Absolute Encoder

Electrical Characteristics

Resolution ..... 1024 positions
Insulation Resistance (500 VDC) ..... 1,000 megohms
Electrical Travel ..... Continuous
Supply Voltage ..... 5.0 VDC ±10 %, 3.3 VDC ±10 %
Supply Current ..... 20 mA maximum
Output Voltage
  Low Output Level ..... Vss+0.4 V maximum
  High Output Level ..... Vdd-0.5 V minimum
Output Current
  With 4.5 VDC Supply Voltage ..... 4 mA maximum
  With 3.0 VDC Supply Voltage ..... 2 mA maximum
Rise/Fall Time (Incremental Output) ..... 500 ns maximum
Shaft RPM (Ball Bearing) ..... 10,000 rpm maximum
Linearity ..... 0.5 %
Accuracy
  Nominal ..... ±0.7 ° or better
  Worst Case ..... ±1.4 °
Output Transition Noise ..... 0.12 ° RMS max.

Environmental Characteristics

Operating Temperature Range ..... -40 ºC to +125 ºC (-40 °F to +257 °F)
Storage Temperature Range ..... -55 °C to +125 °C (-67 °F to +257 °F)
Humidity ..... MIL-STD-202, Method 103B, Condition B
Vibration ..... 15 G
Shock ..... 50 G
Rotational Life
  S Bushing (@1,000 rpm) ..... 100,000,000 revolutions
  T & W Bushings (@1,000 rpm with 250 g side load) ..... 50,000,000 revolutions
IP Rating ..... IP 65

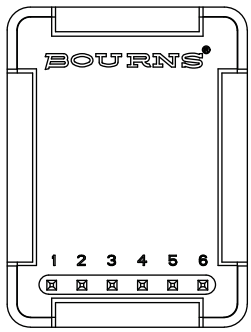
Mechanical Characteristics

Mechanical Angle ..... 360 ° Continuous
Torque
  Starting ..... 43 ±21 g-cm (0.6 ±0.3 oz-in.)
  Running ..... 29 ±14 g-cm (0.4 ±0.2 oz-in.)
Mounting Torque ..... 203 N-cm (18 lb.-in.)
Shaft End Play ..... 0.30 mm (0.012 ") T.I.R. maximum
Shaft Radial Play ..... 0.12 mm (0.005 ") T.I.R. maximum
Weight ..... 11 gms. (0.4 oz.)
Terminals ..... Axial, radial or ribbon cable
Soldering Condition
  Manual Soldering ..... 96.5Sn/3.0Ag/0.5Cu solid wire or no-clean rosin cored wire
    370 °C (700 °F) max. for 3 seconds
  Wave Soldering ..... 96.5Sn/3.0Ag/0.5Cu solder with no-clean flux
    260 °C (500 °F) max. for 10 seconds
  Wash processes ..... Not recommended
Marking ..... Manufacturer's trademark, name, part number, and date code.
Hardware ..... One lockwasher and one mounting nut supplied with each encoder, except on servo mount versions.

Pin Configuration

Output Type	Pin 1 (DI) (1)	Pin 2 (CLK)	Pin 3	Pin 4 (DO)	Pin 5	Pin 6
Absolute	Digital Input	Clock	GND	Digital Output	VCC (2)	CS

(1) Pin 1 (DI) should be grounded when in a single sensor configuration
(2) Can be 5 or 3.3 VDC depending on the version.



WARNING Cancer and Reproductive Harm - www.P65Warnings.ca.gov

*RoHS Directive 2015/863, Mar 31, 2015 and Annex.
Specifications are subject to change without notice.
Users should verify actual device performance in their specific applications.

Applications

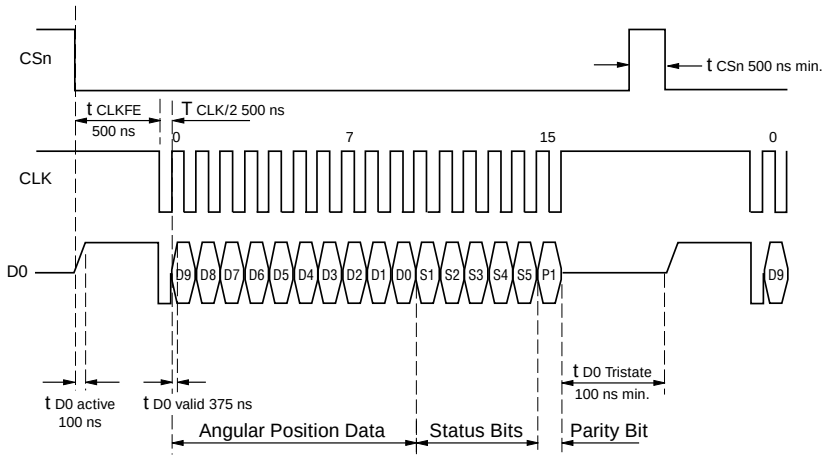
- Material handling equipment
- Brushless DC motor commutation
- Robotics
- Industrial automation
- Petroleum refinery
- Medical (low/medium risk)*
- Office equipment
- Audio and broadcast equipment

EMS22A - Non-Contacting Absolute Encoder

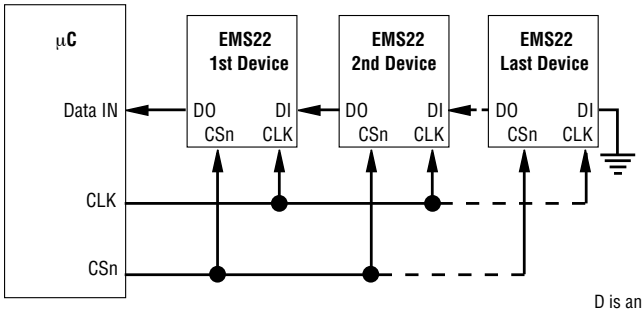
BOURNS®

Output Type Waveform and Variant Table

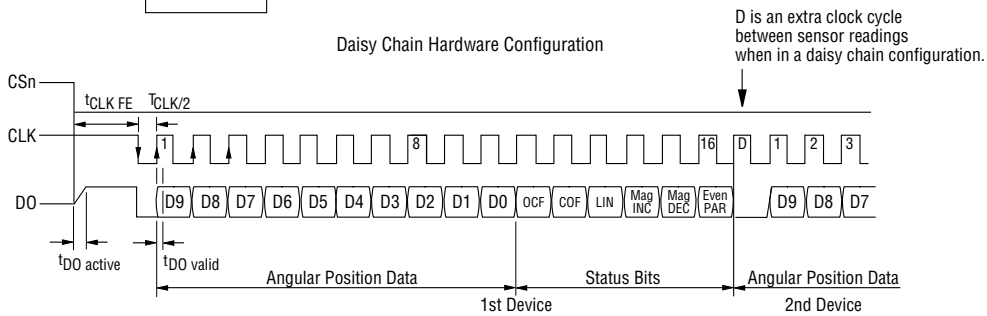
Absolute Output



Data Content	Description
D9:D0	Absolute angular position data
S1	End of offset compensation algorithm
S2	Cordic overflow indicating an error in cordic part
S3	Linearity alarm
S4	Increase in magnetic magnitude
S5	Decrease in magnetic magnitude
P1	Even parity for detecting bits 1-15 transmission error



Daisy Chain Hardware Configuration



Daisy Chain Mode Data Transfer

* Bourns® products have not been designed for and are not intended for use in "lifesaving," "life-critical" or "life-sustaining" applications nor any other applications where failure or malfunction of the Bourns® product may result in personal injury or death. See Legal Disclaimer Notice www.bourns.com/docs/legal/disclaimer.pdf.

Consult factory for options not shown, including:

- Wire lead or cable options
- Connectors
- Non-standard resolutions
- Special shaft/bushing sizes and features
- Special performance characteristics
- PCB mounting bracket

How To Order

BOURNS EMS22 22 MM NON-CONTACTING ABSOLUTE ENCODER

E	M	S	2	2	A	5	0	-	B	2	8	-	L	S	6

INDEX CHANNEL

Code	Description
0	**No Index**

VOLTAGE SUPPLY

Code	Description
3	3.3 VDC
5	**5 VDC**

SHAFT LENGTH DESIGNATOR*

Code	Description
16	1/2 ˝ Long
20	5/8 ˝ Long
28	**7/8 ˝ Long**
25	25 mm Long (Available with D Bushing Only)

RESOLUTION

Code	States
6	**1024**

BUSHING DESIGNATOR

Code	Description
S	**3/8 ˝ D X 3/8 ˝ L Thr eaded (Single Ball Bearing)**
T	3/8 ˝ D X 3/8 ˝ L Thr eaded (Dual Ball Bearing)
W	Servo Mount 7/8 ˝ D (Dual Ball Bearing)
D	9 mm D X 7.94 mm L Threaded (Single Ball Bearing)

SHAFT STYLE

Code	Description	Available With Bushings (Code)
B	**1/4 ˝ Dia., Plain End**	**S**
C	1/4 ˝ Dia., Flatted End	S
D	1/8 ˝ Dia., Plain End	T, W
M	6 mm Dia., Flatted End	D

TERMINAL CONFIGURATION**

Code	Description
L	**Axial, Multi-Purpose Pin**
M	Rear Ribbons Cable with Connector
W	Rear Ribbons Cable - No Connector

OUTPUT TYPE

Code	Description	Notes
A	**CW Absolute**	**See Note 1 below**
B	CCW Absolute	See Note 2 below

* Shaft length measured from mounting surface.
** Standard ribbon cable is 10 inches long. Consult factory for other lengths.

Note 1: (A) positions increase from 0 to 1024 with CW rotation of the shaft.
Note 2: (B) positions increase from 0 to 1024 with CCW rotation of the shaft.

Legal Disclaimer Notice

BOURNS®

This legal disclaimer applies to purchasers and users of Bourns® products manufactured by or on behalf of Bourns, Inc. and its affiliates (collectively, "Bourns").

Unless otherwise expressly indicated in writing, Bourns® products and data sheets relating thereto are subject to change without notice. Users should check for and obtain the latest relevant information and verify that such information is current and complete before placing orders for Bourns® products.

The characteristics and parameters of a Bourns® product set forth in its data sheet are based on laboratory conditions, and statements regarding the suitability of products for certain types of applications are based on Bourns' knowledge of typical requirements in generic applications. The characteristics and parameters of a Bourns® product in a user application may vary from the data sheet characteristics and parameters due to (i) the combination of the Bourns® product with other components in the user's application, or (ii) the environment of the user application itself. The characteristics and parameters of a Bourns® product also can and do vary in different applications and actual performance may vary over time. Users should always verify the actual performance of the Bourns® product in their specific devices and applications, and make their own independent judgments regarding the amount of additional test margin to design into their device or application to compensate for differences between laboratory and real world conditions.

Unless Bourns has explicitly designated an individual Bourns® product as meeting the requirements of a particular industry standard (e.g., ISO/TS 16949) or a particular qualification (e.g., UL listed or recognized), Bourns is not responsible for any failure of an individual Bourns® product to meet the requirements of such industry standard or particular qualification. Users of Bourns® products are responsible for ensuring compliance with safety-related requirements and standards applicable to their devices or applications.

Bourns® products are not recommended, authorized or intended for use in nuclear, lifesaving, life-critical or life-sustaining applications, nor in any other applications where failure or malfunction may result in personal injury, death, or severe property or environmental damage. Unless expressly and specifically approved in writing by two authorized Bourns representatives on a case-by-case basis, use of any Bourns® products in such unauthorized applications might not be safe and thus is at the user's sole risk. Life-critical applications include devices identified by the U.S. Food and Drug Administration as Class III devices and generally equivalent classifications outside of the United States.

Bourns expressly identifies those Bourns® standard products that are suitable for use in automotive applications on such products' data sheets in the section entitled "Applications." Unless expressly and specifically approved in writing by two authorized Bourns representatives on a case-by-case basis, use of any other Bourns® standard products in an automotive application might not be safe and thus is not recommended, authorized or intended and is at the user's sole risk. If Bourns expressly identifies a sub-category of automotive application in the data sheet for its standard products (such as infotainment or lighting), such identification means that Bourns has reviewed its standard product and has determined that if such Bourns® standard product is considered for potential use in automotive applications, it should only be used in such sub-category of automotive applications. Any reference to Bourns® standard product in the data sheet as compliant with the AEC-Q standard or "automotive grade" does not by itself mean that Bourns has approved such product for use in an automotive application.

Bourns® standard products are not tested to comply with United States Federal Aviation Administration standards generally or any other generally equivalent governmental organization standard applicable to products designed or manufactured for use in aircraft or space applications. Bourns expressly identifies Bourns® standard products that are suitable for use in aircraft or space applications on such products' data sheets in the section entitled "Applications." Unless expressly and specifically approved in writing by two authorized Bourns representatives on a case-by-case basis, use of any other Bourns® standard product in an aircraft or space application might not be safe and thus is not recommended, authorized or intended and is at the user's sole risk.

The use and level of testing applicable to Bourns® custom products shall be negotiated on a case-by-case basis by Bourns and the user for which such Bourns® custom products are specially designed. Absent a written agreement between Bourns and the user regarding the use and level of such testing, the above provisions applicable to Bourns® standard products shall also apply to such Bourns® custom products.

Users shall not sell, transfer, export or re-export any Bourns® products or technology for use in activities which involve the design, development, production, use or stockpiling of nuclear, chemical or biological weapons or missiles, nor shall they use Bourns® products or technology in any facility which engages in activities relating to such devices. The foregoing restrictions apply to all uses and applications that violate national or international prohibitions, including embargos or international regulations. Further, Bourns® products and Bourns technology and technical data may not under any circumstance be exported or re-exported to countries subject to international sanctions or embargoes. Bourns® products may not, without prior authorization from Bourns and/or the U.S. Government, be resold, transferred, or re-exported to any party not eligible to receive U.S. commodities, software, and technical data.

To the maximum extent permitted by applicable law, Bourns disclaims (i) any and all liability for special, punitive, consequential, incidental or indirect damages or lost revenues or lost profits, and (ii) any and all implied warranties, including implied warranties of fitness for particular purpose, non-infringement and merchantability.
