Is Now Part of

ON Semiconductor®

To learn more about ON Semiconductor, please visit our website at
www.onsemi.com

Please note: As part of the Fairchild Semiconductor integration, some of the Fairchild orderable part numbers will need to change in order to meet ON Semiconductor's system requirements. Since the ON Semiconductor product management systems do not have the ability to manage part nomenclature that utilizes an underscore (_), the underscore (_) in the Fairchild part numbers will be changed to a dash (-). This document may contain device numbers with an underscore (_). Please check the ON Semiconductor website to verify the updated device numbers. The most current and up-to-date ordering information can be found at www.onsemi.com. Please email any questions regarding the system integration to Fairchild_questions@onsemi.com.

FFB20UP30DN

20 A, 300 V, Ultrafast Dual Diode

Features

- Ultrafast Recovery, t_{rr} = 45 ns (@ I_F = 10 A)
- Max Forward Voltage, V_F = 1.3 V (@ T_C = 25°C)
- Reverse Voltage : V_{RRM} = 300 V
- Avalanche Energy Rated
- RoHS Compliant

Applications

- General Purpose
- SMPS,Welder
- Free-Wheeling Diode for Motor Application
- Power Switching Circuits

Description

The FFB20UP30DN is an ultrafast dual diode with low forward voltage drop and rugged UIS capability. This device is intended for use as freewheeling and clamping diodes in a variety of switching power supplies and other power switching applications. It is specially suited for use in switching power supplies and industrial applicationa as welder application.
