AUTOMOTIVE

**POWERTRAIN
SYSTEMS**

TE Automotive – a business segment of TE Connectivity – follows the globalization goals of our customers, speeds up the integration of new technologies and enables our customers access to our vast product portfolio and services.

INFOTAINMENT

TE Automotive is focused on providing the best in class Infotainment technology to support high speed data communication in the automotive industry. Data communication based optical, coaxial as well as shielded electrical physical layers are supported by a wide product portfolio of Automotive grade connector systems.

Through a deep understanding of the technical properties and requirements of signal integrity and combined with our application knowledge both in the vehicle as well as in the logistics chain, TE Automotive is well positioned to offer the right solution for all current and next generation Infotainment Systems.

HYBRID & ELECTRIC MOBILITY SOLUTIONS

Complete the connections you need to safely, and reliably make hybrid and electric mobility a reality for everyone, everyday. With over 50 years experience in automotive, industrial and energy connectivity, TE is an expert in pushing innovation from one industry to the next.

Our portfolio of AMP+ high voltage relays, resistors, AMP+ headers, connectors, IPT/APT and cable assemblies and vehicle charging solutions are designed to connect and protect electric distribution inside and outside of the vehicle.

SENSORS

Contact-less measuring eliminates interference effects, wear and tear, and provides increased reliability. TE Automotive, one of the largest technology providers for the automobile industry, offers contact-less sensors for a variety of applications.

As sensor manufacturer and processing partner, TE Automotive also provides project planning support for new sensor applications, assistance in the selection of the appropriate sensor technology for the respective application, and assistance with defining the corresponding mechanical, electrical and magnetic interface.

TE Automotive has a broad electro-mechanical portfolio that includes robust housing technologies, connector systems, and temperature stable designs based on foil and cable networks. This combination of technologies and experience ensures that reliable and cost effective sensor solutions are available for all application types.

TERMINALS & CONNECTORS

TE Automotive offers a broad range of high quality terminals and connectors. Our electrical/electronic interconnection products and solutions are used to electrically and mechanically join wires and cables, printed circuit boards, integrated circuit packages and batteries.

TE Automotive expanding capabilities include new copper and fiber-optic connectors, wires, cables/cable management systems that are designed to meet automotive industry demands. Our brands encompass the broadest range of connectors in the world, including high-density, high-speed designs for leading-edge communications equipment.

CABLE ASSEMBLY SYSTEMS

TE Automotive is your partner for special cable assemblies. We offer research and development capabilities, prototyping, samples as well as manufacturing facilities for special cable assemblies. This includes overmold technology, semi/fully automatic manufacturing, testing equipment and appliances for handling of high volume production.

INDUCTIVE COIL SYSTEMS

TE Automotive is your source for interconnection technologies for automotive, truck and off-highway OEMs and Tier 1 suppliers. With our global design center in Belgium and manufacturing sites in all regions, TE Automotive's Inductive Coil Systems (ICS) group is ready to design your next-generation coil modules and provide local production support.

The ICS group maintains a leading market position in braking modules and other automotive coil applications. Through early involvement with you on your nextdesign, TE Automotive can offer the benefits of miniaturization, design-in of platform components and optimized process flow for your standard, hybrid and electric vehicle project needs.

The screenshot shows the TE Connectivity website. At the top, there is a logo with the letters 'TE' in blue and orange, followed by the word 'connectivity'. To the right, there are links for 'Sign In/Register' and 'English (Change)'. Below the header, there is a navigation bar with links for 'Products', 'Industries', 'Resources', 'About TE', 'Support Center', and 'My Account'. A search bar with the placeholder 'What can we help you find?' and a magnifying glass icon is located on the right. The main content area features a large image of a car's side mirror reflecting a road and landscape. Overlaid on this image is the text 'HIGH SPEED CONNECTIONS FOR THE ROAD AHEAD' and a subtext: 'Our connectors help provide high speed data connectivity for next-generation vehicle infotainment systems.' Below this is a 'Learn More' button. On the left, there is a sidebar with 'Products' and 'Industry Solutions' sections. The 'Products' section lists categories like Circuit Protection, Connectors & Connector Components, Fiber Optics and Fiber Management, Optical Components, Filters, Identification Products, Passive Components, Relays, Switches and Sensors, Tooling Products, Tubing & Hoseasing Products, Wireless, and Wireless Coverage & Capacity Solutions. Below this is a 'View All Product Types' link. The 'Industry Solutions' section is titled 'Automotive' and includes the subtext: 'Our technologies enhance your safety, communications, engine controls and power...'. It features a 'Learn More' button and a 'View All Industry Solutions' link. On the right, there is a 'New Products' section showing a USB-like optical transceiver and a 'View All New Products' link. The bottom right corner of the main image has a small graphic of colored circles.

The screenshot shows the TE Connectivity website for the automotive industry. The header features the TE logo with the tagline 'connectivity'. A search bar with the placeholder 'What can we help you find?' and a magnifying glass icon is on the right. Below the header, a sub-header 'TE Automotive' is on the left, and a link 'Visit www.te.com' is on the right. The main title 'Products for the Automotive Industry' is centered above a horizontal menu bar. The menu bar includes: Home, Technology Overview, Products, Technical Dictionary, Press, Video Animations, Automotive Events, and Help. Below the menu, there are two large images: a grey SUV on the left and a silver sports car on the right. To the left of the cars, a text box reads: 'TE Automotive is your source for innovative technologies, products and solutions for automotive and commercial vehicle applications. For 140 years, our techniques and use of advanced safety systems, integrated engine controls and advanced driver management systems. Our innovations include: sensors, terminals and connectors, custom cable assemblies, sensors, relays and switching modules, inductive systems, high-power components, and power management products. TE's extensive product line includes: vehicle lighting, sealing gels, application tooling and protection products; making TE Automotive a virtual one-stop shop to assist you in developing your automotive and commercial vehicle applications.' To the right of the cars, a vertical sidebar on the right edge contains a yellow bar with the text 'Technical Dictionary Online' and a link 'Technical Dictionary Online'. At the bottom of the page, there are six thumbnail images with labels: 'Terminals & Connectors', 'Lable Assembly Systems', 'Sensors', 'Relays & Switching Modules', 'High-Speed Data Subsystems', 'Alternative Power Systems', and 'Inductive Systems'. The footer includes the MOST logo and the i394 logo.

The screenshot shows the homepage of the TE Automotive Sensors website. At the top, there is a search bar with the placeholder "What can we help you find?" and a magnifying glass icon. Below the search bar, a banner with the text "Visit [www.te.com](#)" is visible. The main navigation menu includes "Home", "Automotive", "Sensors", and "TE Automotive Sensors at a glance". The main content area features a large image of a car's front end with a sensor mounted on it. Overlaid on the image is the text "TE Automotive Sensor Solutions". To the right of the image is a vertical navigation bar with links: "Welcome", "Product Focus", "Technology Portfolios", "Competencies", "Platform Designs", and "Did you know that...". Below the main image, there are two sections: "Global" and "Innovative", each accompanied by a checkmark icon and a small image of a sensor component.

TE Connectivity ist ein führender Anbieter von Komponenten, Systemen und Lösungen für die Elektrifizierung und Automatisierung von Anwendungen in der Automobil-, Infrastruktur-, Industrie- und Energiesektoren. Die TE-Produktpalette umfasst unter anderem: Schalter und Sensoren, Steckverbinder, Antriebstechnologien, Hochspannungs-Konnektivitätslösungen, Batterietechnologien, Hochspannungs- und EMV-Schutzmaßnahmen für Hybridelektrische Antriebe, sowie Lösungen für die Anwendung von Batterien in der Automobil- und Industriewelt.

Quality Guidelines

Incorrect

Terminal twisted

Cut off tab deformed

Crimp height too tight

Insulation inside the wire crimp

Conductor Brush protruding into terminal body

Terminal bend

Bellmouth on wrong end

INSULATION CRIMP

Insulation is pierced and could damage conductor

Insulation material is pierced

Insulation is not securely held

Insulation is over crimped

Insulation legs are not closed

Insulation is not securely held
Legs do not overlap

WIRE CRIMP

Incorrect applicator adjustment

Asymmetric crimp

Terminal feed incorrectly adjusted

Unacceptable formation excessive flash and/or cracks

Anvil and crimper not aligned or worn

Incorrect terminal/wire selection

Wire size too large

Crimp barrel does not close

Incorrect crimp height adjustment

Crimp height too loose

Insufficient deformation, showing voids

Crimp height too tight

Flash at under side of crimp, due to over crimping

Quality Guidelines
Correct

Correct selection of wire, terminal and applicator

Crimp barrel is closed, legs support each other

Sufficient gap between legs and bottom of crimp

All strands are equally distributed and deformed

Test
WIRE CRIMP

Crimp height measurement

Crimp heights and tolerances

For crimp height tolerances for any given contact, please refer to the relevant application specification.

Examples:

Contact	Part No.	Wire Range (mm ²)	Tolerance (mm)	Application Spec.
MQS	962885	0.2–0.5	± 0.03	114-18025
	962886			
JPT	927775	0.5–1.0	± 0.05	114-18050
JPT	927773	1.5–2.5	± 0.05	114-18050

Digital Crimp Height Micrometer

(0.001 mm increments) acc. to DIN ISO 9001
Part No. 547203-1

F-CRIMP

Insulation is securely held
Crimp barrel closed

For double wire applications with different size wires always place wire with smallest outer diameter in the bottom

OVERLAP CRIMP

Insulation is securely held
Legs overlap

WRAP OVER CRIMP

Insulation securely held
Legs must pass each other

INSULATION CRIMP

Wire crimp without conductor

Insulation must be securely held after bend test

1st Digit	Against Foreign Objects (incl. Dust)	1st Digit	Against Foreign Objects (incl. Dust)
0			
	Not protected.	5K	
1			
	Protected against solid objects greater than 50 mm (ex. back of hand).	6K	
2			
	Protected against solid objects greater than 12.5 mm (ex. finger).		
3			
	Protected against solid objects greater than 2.5 mm (ex. tool).		
4			
	Protected against solid objects greater than 1.0 mm (ex. wire).		

IP Code (Elements and Significance acc. to IEC 60529 and DIN 40050)

2nd Digit	Against Water	2nd Digit	Against Water		
0		Not protected.		5	Protected against jetting water.
1		Protected against vertically dripping water.		6	Protected against powerfully jetting water.
2		Protected against dripping water when tilted up to 15°.		6K	Protected against powerfully jetting water with increased pressure (Automotive).
3		Protected against spraying water (up to 60° inclination).		7	Protected against the temporary effects of immersion up to 1 meter.
4		Protected against splashing water.		8	Protected against continuous submersion agreed with customer, but more severe than code 7.
4K		Protected against splashing water with increased pressure.		9K	Protected against high-pressure/steam-jet cleaning (Automotive).

Restriction on the Use of Hazardous Substances (RoHS)

Restriction on the use of Hazardous Substances (RoHS)

At TE Connectivity, we're ready to support your RoHS requirements. We've assessed more than 1.5 million end items/components for RoHS compliance, and issued new part numbers where any change was required to eliminate the restricted materials. Part numbers in this catalog are identified as:

RoHS Compliant

Part numbers in this catalog are RoHS Compliant, unless marked otherwise.

These products comply with European Union Directive 2002/95/EC as amended 1 January 2006 that restricts the use of lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE in certain electrical and electronic products sold into the EU as of 1 July 2006.

Note: For purposes of this Catalog, included within the definition of RoHS Compliant are products that are clearly "Out of Scope" of the RoHS Directive such as hand tools and other non-electrical accessories.

Non-RoHS Compliant

These part numbers are identified with a "♦" symbol. These products do not comply with the material restrictions of the European Union Directive 2002/95/EC.

5 of 6 Compliant

A "●" symbol identifies these part numbers. These products do not fully comply with the European Union Directive 2002/95/EC because they contain lead in solderable interfaces (they do not contain any of the other five restricted substances above allowable limits). However, these products may be suitable for use in RoHS applications where there is an application-based exception for lead in solders, such as the server, storage, or networking infrastructure exemption.

Note: Information regarding RoHS compliance is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. For latest compliance status, refer to our website referenced below.

Getting the information you need

Our comprehensive on-line RoHS Customer Support Center provides a forum to answer your questions and support your RoHS needs. A RoHS FAQ (Frequently Asked Questions) is available with links to more detailed information. You can also submit RoHS questions and receive a response within 24 hours during a normal work week. The Support Center also provides:

- Cross-Reference from Non-compliant to Compliant Products
- Ability to browse RoHS Compliant Products in our on-line catalog: <http://www.te.com/commerce/alt/RohsAltHome.do>
- Downloadable Technical Data Customer Information Presentation
- More detailed information regarding the definitions used above

So whatever your questions when it comes to RoHS, we've got the answers at <http://www.te.com/customersupport/rohssupportcenter/>

AWG Conversion Table (Average Value)
Conversion Tables

Most of the wire size ranges are mentioned in mm^2 , as well as the insulation diameters which are in many cases only in mm's.

We therefore included the conversion tables on page X and page XI.

Please note that wire and insulation sizes are for guidance only.

Consult the customer drawing for precise detail.

AWG Code	Diameter (Inch)	Diameter (mm)	F (mm^2)
000000	0.5800	14.733	170.0
00000	0.5165	13.13	135.0

THE PRODUCTS

Engineering Notes

Introduction

MFINITY offers limitless combinations with its various modules.

Easily assembled into a complete power distribution panel, without any tooling cost.

All modules and accessories shown in this catalogue are standard products. Upon request, TE Connectivity (TE) will design and manufacture custom modules, wire dress, frame or cover to meet specific customer requirements.

With its proven technology, MFINITY offers flexible, off the shelf products targeting low volume customers to create their own configurations.

Product Facts Overview

- ISO standard
- Modular design
- Temperature class
-40°C to +85°C
- Vibration class on body
- Unsealed
- Overview 114-94092
- Pre-Fuse modules for
SF30 (Midi) and
Type A (J-Case) Fuses

Modules for Relays
Mini Relay Module, 2 Positions
Technical Features
Material

PBT

Product Specification

108-94263

Application Specification

114-94090

Order Informations

2x ISO Mini Relays

Part Number 2141024-1
**Please find suitable relays
on page 5**

Mini Relay Module 2 Positions

Module P/N	Name	Product Dimensions L x W x H (mm)
2141024-1	Mini Relay Module	69.3 x 47 x 42.5

Suitable Terminals

Terminal TE P/N	Description	Material	Plating	Wire Size (mm ²)
2208343-1	LEAR - 6.3mm 361330-YF200	N/A	Pre-Tinned	0.5 – 1.5
2208343-3	LEAR - 6.3mm 361030-YF200	N/A	Pre-Tinned	3 – 5

Modules for Relays
Micro Relay Module, 4 Positions
Technical Features
Material

PBT

Product Specification

108-94263

Application Specification

114-94090

Order Informations

4x ISO Micro Relays

Part Number 2141022-1

**Please find suitable relays
on page 5**

Micro Relay Module 4 Positions

Module P/N	Name	Product Dimensions L x W x H (mm)
2141022-1	Micro Relay Module	69.3 x 47 x 40.75

Suitable Terminals

Terminal TE P/N	Description	Material	Plating	Wire Size (mm ²)
2208343-2	LEAR - 6.3mm 361430-YF200	N/A	Pre-Tinned	1.5–2.0
2208342-2	Molex - 4.8mm 33113-0003	N/A	N/A	N/A
2208342-1	Molex - 4.8mm 33113-0005	N/A	N/A	N/A

Technical Features
Material

PBT

Product Specification

108-94263

Application Specification

114-94090

Order Informations

2x ISO Maxi Relays

Part Number 2141026-1
**Please find suitable relays
on page 5**

Maxi Relay Module 2 Positions

Module P/N	Name	Product Dimensions L x W x H (mm)
2141026-1	Maxi Relay Module	69.3 x 47 x 59

Suitable Terminals

Terminal TE P/N	Description	Material	Plating	Wire Size (mm ²)
1-1355849-1	9.5 Single Tab	CuNiSi	Pre-Tinned	6-10
2208343-1	LEAR - 6.3mm 361330-YF200	N/A	Pre-Tinned	0.5-1.5

Relays
Micro ISO Micro Relay A / VFMA, Mini ISO Power Relay B, Maxi ISO Power Relay F7
Micro ISO, Micro Relay A / VFMA (24 V)

Arrangement	Cover	Coil. Suppr.	Part Number
Micro Make (NO)	Standard	Diode	V23074-A2002-A402 6-1393292-2

Product Specification

108-94263

Application Specification

114-94090

Order Informations

12x (ATO) Medium Fuse

Part Number 2141028-1

Medium Fuse Module 12 Positions

Module P/N	Module Name	Product Dimensions L x W x H (mm)
2141028-1	Medium Fuse Module	69.3 x 47 x 43

Suitable Terminals

Terminal TE P/N	Description	Material	Plating	Wire Size (mm ²)
881572-3	Fuse Contact Busbar	Brass	Pre-Tinned	4–6
880397-2	Fuse Contact Single	Brass	Pre-Tinned	0.5–1.5
880398-1	Fuse Contact Single	Brass	–	>1–2.5
880398-2	Fuse Contact Single	Brass	Pre-Tinned	>1–2.5

Modules for Fuses
Miniature Fuse Module, 16 Positions
Technical Features

PBT

Product Specification

108-94263

Application Specification

114-94090

Order Informations

16x Miniature (Mini) Fuse

Part Number 2141029-1

Miniature Fuse Module 16 Positions

Module P/N	Module Name	Product Dimensions L x W x H (mm)
2141029-1	Miniature Fuse Module	69.3 x 47 x 43

Suitable Terminals

Terminal TE P/N	Description	Material	Plating	Wire Size (mm ²)
1-1355844-1	Fuse Contact Busbar	CuNiSi	Pre-Tinned	4–6
1-1355877-1	Fuse Contact Single	CuNiSi	Pre-Tinned	1–2.5
1-1355833-1	Fuse Contact Single	CuNiSi	Pre-Tinned	0.5–1.0
1-1355880-1	Fuse Contact Single	CuNiSi	Pre-Tinned	2.5–4

Technical Features
Material

PBT

Product Specification

108-94263

Application Specification

114-94090

Order Informations

Spare Fuse Module

Part Number 1-2141095-1

Can contain up to:

- 7x Medium (ATO) Fuses
used in module
Part Number 2141028-1
- 6x Miniature (Mini) Fuses
used in module
Part Number 2141029-1
- 1x Fuse Puller

Spare Fuse Module

Module P/N	Module Name	Product Dimensions L x W x H (mm)
1-2141095-1	Spare Fuse Module	69.1 x 46.7 x 40

Modules for Pre-Fuses
Type A Fuse Module, 14 Positions – Busbar Version
Technical Features
Material

PA6

Product Specification

108-94263

Application Specification

114-94090

Order Informations

 Screw M8 for B+ Connection
 with wire up to 35mm²

14x Type A Fuse (J-Case)

Part Number 2141040-1

2x Spare Fuse places

Type A Fuse Module 14 Positions – Busbar Version

Module P/N	Module Name	Product Dimensions L x W x H (mm)
2141040-1	Type A Fuse Module (Busbar Version)	155.55 x 47 x 57.3

 Mating Cover see page 13
 Part Number 2141039-1

Modules for Pre-Fuses
Type A Fuse Module, 14 Positions – Wire-by-Wire Version
Technical Features
Material

PA6

Product Specification

108-94263

Application Specification

114-94090

Order Informations

 B+ Connection via
 wire to busbar – Tab

14x Typ A Fuse (J-Case)

Part Number 2141040-2

2x Spare Fuse places

Type A Fuse Module 14 Positions – Wire by Wire Version

Module P/N	Module Name	Product Dimensions L x W x H (mm)
2141040-2	Type A Fuse Module	144.55 x 47 x 57.3

Suitable Terminals

Terminal TE P/N	Description	Material	Plating	Wire Size (mm ²)
1670225-1	6.3 Busbar & Single Tab	–	Tin Hot Dipped	4-6
963755-1	6.3 Single Tab	N/A	Pre-Tinned	2.5-4

Modules for Pre-Fuses

Pre-Fuse – SF30 – Module, 8 Positions

Technical Features

Material

PBT

Product Specification

108-94263

Application Specification

114-94090

Order Informations

Screw M8 for B+ Connection
with wire up to 35mm²

Part Number 2141034-1

Used with 8 x M5 Bolt

Part Number 1534968-2

Pre-Fuse – SF30 – Module, 8 Positions

Module P/N	Module Name	Product Dimensions L x W x H (mm)
2141034-1	Pre-Fuse SF 30 Module	137 x 70 x 24.1

Mating Cover see page 12
Part Number 2141033-1

Recommended Parts
Cover for Pre-Fuse Module – SF30

Application Tooling

M2000MC Automatic Insertion Machine

**High Quality.
High Reliability.
High Volume.**

Application Tooling
M2000MC Automatic Insertion Machine

With the CE approved M2000MC automatic insertion machine for fuses and relays, TE Application Tooling provides a high-quality solution for high-volume production within the automotive industry.

The M2000MC automatically inserts mini fuses into a Junction Box (J/B) according to the programmed sequence, ensuring that the correct fuses are inserted in the correct location for consistent quality.

The machine reduces the number of operators required in the production process, increasing productivity in the factory, whereas the operator needs to ensure that the machine is supplied with junction boxes and fuses.

The M2000MC can also be optionally equipped with insertion force monitoring and insertion depth control.

Outstanding features deliver tangible benefits

- Dependable high-volume production
- Insertion depth checking by linear scale
- Insertion force monitoring – checking maximum force during insertion
- OCR of fuse before insertion to prevent wrong fuse insertion
- No stopping of production during supply to the bowl feeder
- Robot arm with ionizer that cleans inside the robot arm
- XY table positioning
- Up to 6 heads (fuse)

Machine specification
Layout

LxDxH = 1957.6 x 2584 x 1627.1mm (without tower lamp)
 – dimensions may be altered following a technical meeting.

Machine weight

2,500 kg (inc. blow feeders)
 – Changeable with various J/B design.

Electrical supply

AC 110 V, single phase, 50/60 Hz, 30 KVA – other specific requirements may be met.

Power consumption

2.1 kW

Air supply

4.5-7.0 kgf /cm²

Air consumption

600 l/min

Temperature and humidity

10~35°C, 30~70%

Noise level

< 75 dB(A)

Operating system

Windows XP Professional (Embedded POS-READY2009) Service pack3

PC specification (incl. accessories)

Intel Pentium(R) 2.6 GHz, 1GB RAMSSD hard disk drive by SATA (capacity: 120 GB) 17" LCD touch screen & equipped with keyboard, mouse, DVD ROM drive

Available languages

English and Korean

XY table speed

90 m/min

Device insertion speed (per point)

Various per component size and J/B design.

- Low profile mini fuse: 0.35~0.55 sec
- Relay: 0.8 ~ 1.0 sec
- SB fuse: 0.45~0.7 sec

Max. J/B size

250 x 250 mm – may be altered to meet specific customer requirements

XY positioning accuracy

+/-.01 mm

Insertion depth monitoring
 available in 0.01 mm steps

Insertion force monitoring
 available in 0.01 N steps

Cmk assessment data

>1.67 (X and Y axis)

Machine configuration

Stand-alone only.

Inline configuration is available on request.

Abbreviation Explanation

OCR: Optical character recognition. (Vision sensor checks color or characters on the components.)

SATA: Connection type between PC mother board and memory unit (CD Rom or hard disk).

SB fuse: Slow Blow fuse (type of electric fuse)
