

Push-In Fasteners provide an inexpensive, fast, convenient method to join plastic, circuit boards, or any other thin, light-weight material. They can also be used as push in glides or as bumpers. Special designed legs provide compression and expansion to lock fastener into pre-punched holes. These fasteners are vibration, abrasion and corrosion resistant, and feature large heads for easier assembly, and can be used over and over.

| MOUSER STOCK NO. | Description | Dimensions: in. | | | | | |
|------------------|-------------|-----------------|------------|------------|------------|------------|------------|
| | | H | A | B | C | D | L |
