#### **SPECIFICATIONS**

| Terminal Series No | o. Bell   | Bellmouth |      | Cut-Off Tab Max. |           | Conductor Brush |  |
|--------------------|-----------|-----------|------|------------------|-----------|-----------------|--|
|                    | mm        | (in)      | mm   | (in)             | mm        | (in)            |  |
|                    |           |           |      |                  |           |                 |  |
| 50011-8*00         | 0.05-0.30 | (.002012) | 0.20 | (.008)           | 0.00-0.70 | (.000028)       |  |
|                    |           |           |      |                  |           |                 |  |
|                    |           |           |      |                  |           |                 |  |

| Terminal Series No | o. Bend Up | Bend Down | Twist | Roll | Punch W   | idth mm    |
|--------------------|------------|-----------|-------|------|-----------|------------|
|                    | De         | egree     | De    | gree | Conductor | Insulation |
| 50011-8*00         | 5          | 4         | 3     | 3    | 1.00      | 1.40       |
|                    |            |           |       |      |           |            |
|                    |            |           |       |      |           | ,···       |

The above conditions are guidelines to an optimum crimp.

## **CONDITIONS**

After crimping, the conductor profile should measure the following.

| Terminal Series | Wire Size |        | Crimp Height |           | Pull Force Min |       |
|-----------------|-----------|--------|--------------|-----------|----------------|-------|
|                 | Awg       | (mm²)  | mm           | (in)      | N              | (lbs) |
| 50011-8*00      | 24        | (0.20) | 0.60-0.65    | (.024026) | 29.3           | (6.6) |
| 50011-8*00      | 26        | (0.12) | 0.59-0.64    | (.023025) | 19.6           | (4.4) |
| 50011-8*00      | 28        | (0.08) | 0.56-0.61    | (.022024) | 9.8            | (2.2) |
| 50011-8*00      | 30        | (0.05) | 0.53-0.58    | (.021023) | 4.9            | (1.1) |
|                 |           |        |              |           |                |       |
|                 |           |        |              |           |                |       |
|                 | _         |        |              |           |                |       |
|                 |           |        |              |           | <del></del>    |       |
|                 |           |        |              |           |                |       |
|                 | -         |        |              |           |                |       |
|                 |           |        | <u></u>      |           |                |       |
|                 |           | -      | -            |           |                |       |
|                 |           |        |              |           |                |       |
|                 |           |        |              |           |                |       |
|                 |           | 1      |              |           |                |       |
|                 |           |        | +            |           |                |       |

| 13          | 634434025    | 634434025  | Wire Stop                | 1   |          |
| 14          | 634430009    | 634430009  | Scrap Chute              | 1   |          |
| 15          | 638004900    | 638004900  | FineAdjust Applicator    | 1   |          |
| 70          | 638607170    | 638607170  | Tool Kit (All "Y" Items) | 0   |          |

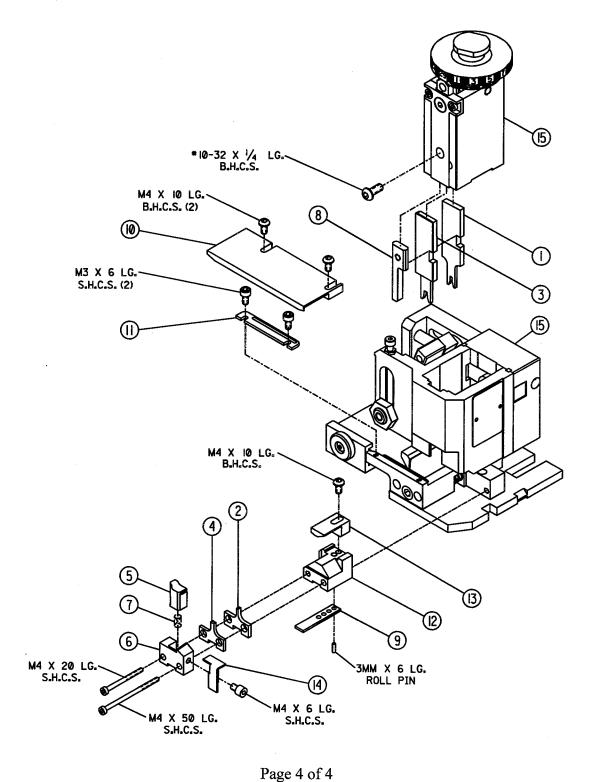

#### **NOTES**

- 1. We recommend an extra perishable tooling kit be maintained at your facility.
- 2. Verify tooling alignment by manually cycling the press and Applicator before crimping under power.
- 3. Slugs, Terminals, Dirt and Oil should be kept clear of work area.
- 4. This applicator should only be used in a press with a shut height of 135.8 mm (5.346"). Tooling damage could result at a lower setting.
- 5. \*\* CAUTION\*\* To prevent injury never operate this Applicator without the guarding supplied with the press or wire processing machine in place. Reference the press or wire processing manufacturer's instruction manual.
- 6. Wear safety glasses at all times.
