Technical drawing of a speaker cabinet front panel. The panel features a central rectangular frame with four circular ports on the outer edges. The top and bottom edges of the frame have inward-curving corners. The left and right edges of the frame have outward-curving corners. The central frame is divided into four quadrants by a horizontal and a vertical line. Each quadrant contains a circular port with a cross-shaped cutout at the top and bottom. The top and bottom horizontal lines of the frame are each marked with a small rectangular cutout. The left and right vertical lines of the frame are each marked with a small rectangular cutout. The overall width of the panel is 1.60, and the distance between the centers of the top and bottom ports is 0.98. The left side of the panel has three vertical dimension lines: the top one is 2.50, the middle one is 2.13, and the bottom one is 2.00. The right side of the panel has a horizontal dimension line at the bottom with a value of 2 X 0.35. A callout line labeled 'A' points to a small circular feature on the right side of the bottom edge of the central frame.
