

### Electrical

Electronic sensor type	Photo-electric sensor
------------------------	-----------------------

### Environment

Ambient air temperature for operation	-25...60 °C
---------------------------------------	-------------

### Functional

[Sn] nominal sensing distance	80 m
-------------------------------	------

### Installation

Head mounting	M4 x 0.7
---------------	----------

### Physical characteristics

Minimum bending radius	10 mm
Optic fiber length	1 m
Optic fiber material	50 µ glass
Product weight	0.04 kg
Sheath material	PVC + thermo polyolefine

### Product identification

End fitting type	Straight in nickel plated brass M4 x 0.7
Range of product	Osiris
Sensor design	Fiber design
Sensor name	XUY
Sheath type	Standard
