

Explanation of part numbers

◇ Part number system

• Standard

• FK, TG series with $\phi D \geq 12.5\text{mm}$

*1: Bi-poler
 *2: If part number exceeds 12 figures, voltage code is abbreviated as follows, 0J → J, 1A → A, 1C → C, 1E → E, 1V → V, 1H → H
 *3: Size $\phi D = 6.3$ mm and larger

• S series
