# CTF SERIES PLASTIC D SUBMINIATURE SHELL (ACCESSORIES)

General

HIROSE CTF series plastic D subminiature shells offer the highest quality of mechanical design and appearance. Available to fit 9, 15, 25, and 37 position connectors and most competitors products. LN mounts allow for design flexibility.
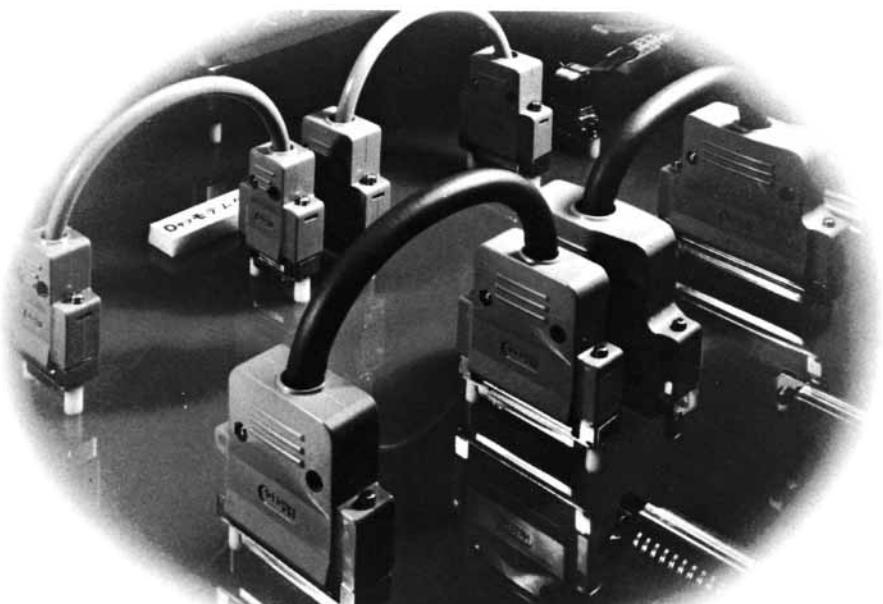

Features

(1) Standard screw type locking mechanism provides a strong and secure lock.
(2) ABS resin molding material offers light weight, sturdy construction.
(3) Easy to assemble and service because the case is split at the center of the cable inlet and few screws are used.
(4) Two types of locking devices are available, rectangular and hexagonal, to meet different panel mounting complies.
(5) The 25-contact model complies with the the modem plug case specified in JIS-C-6361.
(6) Can easily incorporate solderling (HD) and crimping.

Application

Modems in communications equipment such as computers, peripherals and terminal eqipment, control equipment, measuring instruments, and export equipment.

Materials

Part	Material	Finish
Plug case	ABS resin	2.5PB 6/2 (color)
Locking device	Steel or zinc alloy die casting	Nickel plating

Ordering Informations

Plug case

(1)   (6) (7) (8)

(1) Connector series
(2) Connector size: E (9 contacts), A (15 contacts), B (25 contacts), C (37 contacts)
      Note: Not available for 50pos. cover.
(3) Type of plug case
      CT: Plug case with a vertical cable inlet opening
(4) Serial sign for series
      F: Plug case made of plastic
(5) Locking screws
      No sign: To be locked with a screwdriver
      1: To be locked by hand
(6) Locking device
      LN: screw type locking device
(7) Type of locking device
      Provided with a sequence of upper-case alphabe-tic charactors.
      No sign: Rectangular
      A: Hexagonal
(8) Type of screw
      Provided with a sequence of Arabic numerls.
      No sign: M2.6
      (4-40): inch
