## Description

The REC15-xxxxS\_D/M -series offer single and dual regulated outputs in a 2"x1" package with 2kVDC or 3kVDC isolation options and are suitable for higher power industrial applications. Remote on/off control is standard. The converters can deliver 150% rated power for short periods of time to cope with applications with large capacitive loads or high start up currents. The outputs with 3A load current have raised output voltages to compensate for track losses as standard.

Note1: Efficiency is tested at nominal input and full load at +25°C ambient.

## Model Numbering

### Notes:

Note2: add „Z“ for 4:1 Input Voltage (24= 9-36VDC or 48= 18-75VDC)

Note3: „/H2“ = 2kVDC isolation

„/H3“ = 3kVDC isolation

Note4: without suffix, standard Pinning with CTRL Pin  
with suffix „/X2“, without CTRL Pin
