

# XUYFVERTD201

## FV ER TD 201 FIBRE VERRE BARRAGE LONG 2M GAINÉ HAUTE TEMPERATURE EMBOUT DROIT

### Electrical

Electronic sensor type	Photo-electric sensor
------------------------	-----------------------

### Environment

Ambient air temperature for operation	-25...200 °C
---------------------------------------	--------------

### Functional

[Sn] nominal sensing distance	200 m
-------------------------------	-------

### Installation

Head mounting	M4 x 0.7
---------------	----------

### Physical characteristics

Minimum bending radius	30 mm
Optic fiber length	2 m
Optic fiber material	50 µ glass
Product weight	0.06 kg
Sheath material	Flexible stainless steel

### Product identification

End fitting type	Straight in nickel plated brass M4 x 0.7
Range of product	Osiris
Sensor design	Fiber design
Sensor name	XUY
Sheath type	High temperature

# Mouser Electronics
