RP30-F

30 Watt

2"x1" Package
Single & Dual
Output

Description

The RP30-F series DC/DC converters are designed to meet to UL 60950-1 and to cUL60950-1. This makes them ideal for all telecom and industrial applications where approved safety standards are required. The industry standard 2" x 1" package meets military standards for thermal shock and vibration tolerance.

Model Numbering

Ordering Examples

- RP30-2405SF = 24V Input, 5V Output, Positive Logic CTRL pin fitted
 RP30-4812DF/N-HC = 48V Input, ±12V Output, Negative Logic CTRL pin fitted, Heat-sink fitted

Notes:

- Note3: no suffix for CTRL function with Positive Logic (1=ON, 0=OFF)
 add "N" for CTRL function with Negative Logic (0=ON, 1=OFF)
 Note4: add suffix -HC for premounted Heat-sink and clips

External Output Trimming

Output Voltage Trimming

Single output Powerline converters offer the feature of trimming the output voltage over a certain range around the nominal value by using external trim resistors. No general equation can be given for calculating the trim resistors, but the following trimtables give typical values for choosing these trimming resistors. If voltages between the given trim points are required, extrapolate between the two nearest given values to work out the resistor required or use a variable resistor to set the output voltage.

Output can be externally trimmed by using the method shown below.
