# Overview

Upgrading your product to a modern touch screen graphical user interface (GUI) just got easier with the uEZ GUI Family. The **uEZGUI-43-H01** provides everything you need in one convenient package. Our extensive worldwide distribution network includes major players like Mouser. So whether you need one unit or a thousand units, you can be in production quickly with local support, consigned inventory and even flexible payment terms. Volume discounts are also available.

The **uEZGUI-43-H01** combines our **uEZGUI-1788-43WQR-BA** and **uEZGUI-EXP1** together in a sleek ABS plastic enclosure to create a powerful self-contained unit. The **uEZGUI-43-H01** comes pre-assembled and is ready to be used out of the box. Our uEZ / FreeRTOS Rapid Development Platform provides all of the typical drivers and firmware needed for most commercial applications in an open source, no cost package. Our uEZ / SafeRTOS platform is perfect for Medical or Safety Critical applications and runs on the same uEZ GUI Family hardware. We also offer optional Wi-Fi and Power over Ethernet (POE) options for additional flexibility. Ask about our uEZ+ Boot Loader to allow easy customer application firmware updates in the field via either the microSD card or a USB Flash drive.

FDI offers a Quick Start service to help get your new application up and running fast (in many cases this may only take a few weeks). Our emWin GUI experts are available to help customize your User Interface, and our hardware team can design Expansion or Interface Boards to suit almost any requirement.

## Mechanical Specifications

- Dimensions: 5.55”L x 3.79”W x 1.25”H
- Weight: 270g
- Four 4 backside mounting holes for wall mount applications
- Temperature Range: -10 to +70 degrees C

## Kit Contents:

- uEZ GUI 4.3” Board Assembly with LPC1788
- Sharp 4.3” WQVGA Touch Screen LCD
- uEZ GUI Expansion Board with ETH/USB/Serial
- Black ABS Plastic Enclosure, customization available
