Description

The SMARTINT1500 SmartPro 230V 1.5kVA 940W Line-Interactive UPS provides battery backup and AC power

protection against blackouts, brownouts, power surges and line noise that can damage electronics or destroy data. Ideal for backing up VoIP systems, point-of-sale applications and network closets, the SMARTINT1500 switches to battery mode in milliseconds to keep your connected equipment running long enough to save files and shut down safely with no data loss.

Featuring six IEC-320-C13 outlets and two C13-to-C14 power cords, the SMARTINT1500 has an internal battery that provides 20 minutes of support at half load and seven minutes at full load. Front-panel LEDs indicate line power, battery power, load level, voltage regulation and battery status. An alarm sounds to indicate power failure or a low battery.

Automatic voltage regulation (AVR) maintains 230V nominal output over an input range of 165V to 277V without using battery power. EMI/RFI noise filtering improves your equipment's performance and prevents damage. A 480-joule surge suppression rating protects your equipment from harmful power surges. With Tripp Lite's PowerAlert software (available via free download), SMARTINT1500 enables safe unattended system shutdown and file saves in case of a prolonged power failure.
