Product Line Overview

ELM 5.0mm spacing wire-to-board moving cage clamp terminal blocks are available in vertical, horizontal and angled wire entry variations.

Interlocking Modules

The ELM family consists of precision molded 2- and 3-position screw termination modules with interlocking dovetails. Modules can be joined without loss of pin spacing, giving users the option of purchasing and stocking only the 2- and 3-position modules—and assembling to size in-house—in order to minimize inventory and maintain flexibility; or ordering product already assembled to size.

Options and Variations

ELM terminations are available in black or green.

Contact Amphenol Pcd for information on marking, hold-down mounting ears and other application-specific variations.

SPECIFICATIONS:

Current Rating: 15A
 Operating Voltage: 300V
 Insulation Resistance: >105 Megohms
 Dielectric Withstanding: <3000V
 Wire Pullout Force:
 Per UL 486E, Section 14

MATERIALS:

Housing: PBT, UL 94V-0, black or green
 Contact: Brass, tin-lead finish
 Clamp Screw: Copper alloy, nickel finish
 Wire clamp: Copper alloy, nickel finish

INSTALLATION:

Wire Range: 12-28 AWG
 Wire Strip Length: .250"
 Recommended Tightening Torque:
 7 lb-in. (0.79N-m)
 Hole Diameter: .051 min.

APPROVALS:

Consult factory for specific product recognitions .
