## SB<sup>®</sup> 50 Connectors - up to 120 amps

Based off the design pioneered by Anderson in 1953, the two pole SB<sup>®</sup> connectors set the standard for DC power distribution and battery connections. SB<sup>®</sup>50 connectors feature a one piece plastic housing using stainless steel springs to hold low resistance contacts in place. Wires sizes from #16 (1.5 mm<sup>2</sup>) to #6 (13.3 mm<sup>2</sup>) are held in the smallest of the SB<sup>®</sup> series housings.

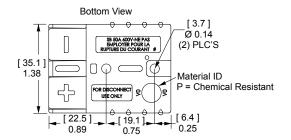

- Low Resistance Silver or Tin Plated Copper Contacts Allows UL rated currents up to 120 amps
- UL Rated for Hot Plugging up to 50 Amps Great for battery or other applications where the ability to interrupt circuits is required
- Wire, PCB, and Busbar Contacts Allows one connection system to meet multiple needs

## SB50<sup>®</sup> ORDERING INFORMATION |

### SB®50 Standard Housings
