Connector Interface Description and Pinouts

Table 1: **Connector Description**

Connector	Description
JP1	Multi-function I/O Connector (UART, analog to digital converter, I²C, power and ground); 16-pin dual row header
J3	On board RJ-45 jack connector;12-pin (100 version only)
JP3	External RJ-45 jack header; 10-pin (200 version only)

Multi-function I/O Connector (JP1)

The SBL2e board has one dual in-line, 16 pin header, which enables you to quickly and easily connect to one of our standard NetBurner Adapter Boards, or a board you create on your own. Table 2 provides a description of pin function for the JP1. Figures 1 and 2 show its location on the 100 and 200 version board.
